Subject: TIFSD Staffing for an OSRTI Desk at the EOC

Dana,

As requested, I did some checking for technical staff available to provide coverage at the OSRTI desk at the EOC during the Gold King Mine incident. They have mining site issues experience or are able to reach back for that kind of technical support elsewhere in OSRTI, the regions or ORD. We can identify more folks as needed. I understand that coverage would be 8:30a-6p. Some of these folks may have never been to the Emergency Operations Center so they may need some brief directions/instructions. Dan and I are both on leave next week, so between Jeff, Gary (acting for Dan) and Linda (acting for me) you have several people through which to coordinate (tagging people to go to the EOC on specific days as nobody has been assigned yet; identifying more TIFSD PY staff to help at the EOC).
